

UW-MSR SUMMER INSTITUTE 2016

ROBOTICS

STATE-OF-THE-ART

Dan Bohus & Maya Cakmak

dbohus@microsoft.com, mcakmak@cs.washington.edu

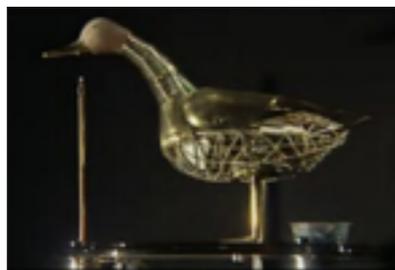

GOALS FOR TODAY

How can we **make robots more accessible?**

How can we **use robots** to make the world more accessible?

A BRIEF/SPARSE HISTORY

automata

1739

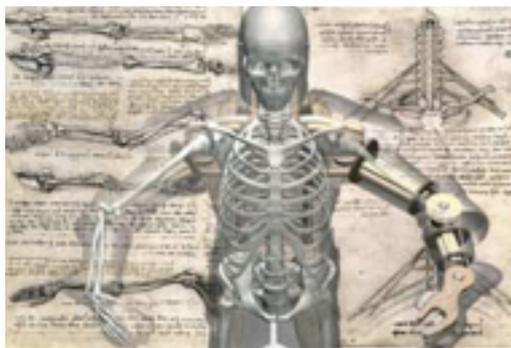

genghis

1989

last 20 years

1495

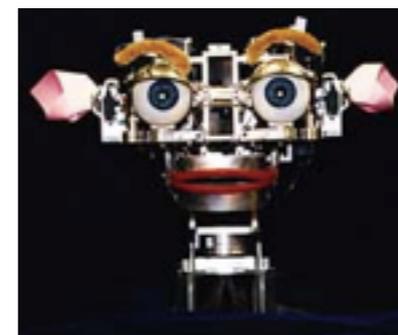

Leonardo
DaVinci

1966

Shakey

1998

Kismet

ASSEMBLY LINE ROBOTS

1980s-1990s: Robots replace manual labor in factories

CLEANING ROBOTS

2000s: More than 14 million home robots sold by iRobot

FABRICATION FOR EVERYONE

2000s-2010s: Reduction in cost, increase in capabilities of fabrication tools

OPEN SOURCE ROBOTICS

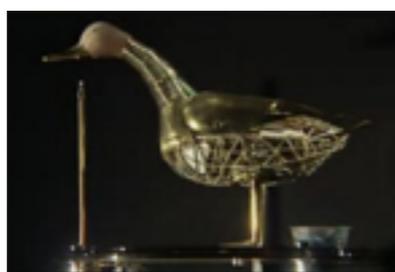

ROS.org

2010s: Researchers have common robot platforms and share robotics software

A BRIEF/SPARSE HISTORY

automata

NATIONAL ROBOTICS INITIATIVE

ROBOTICS JOBS

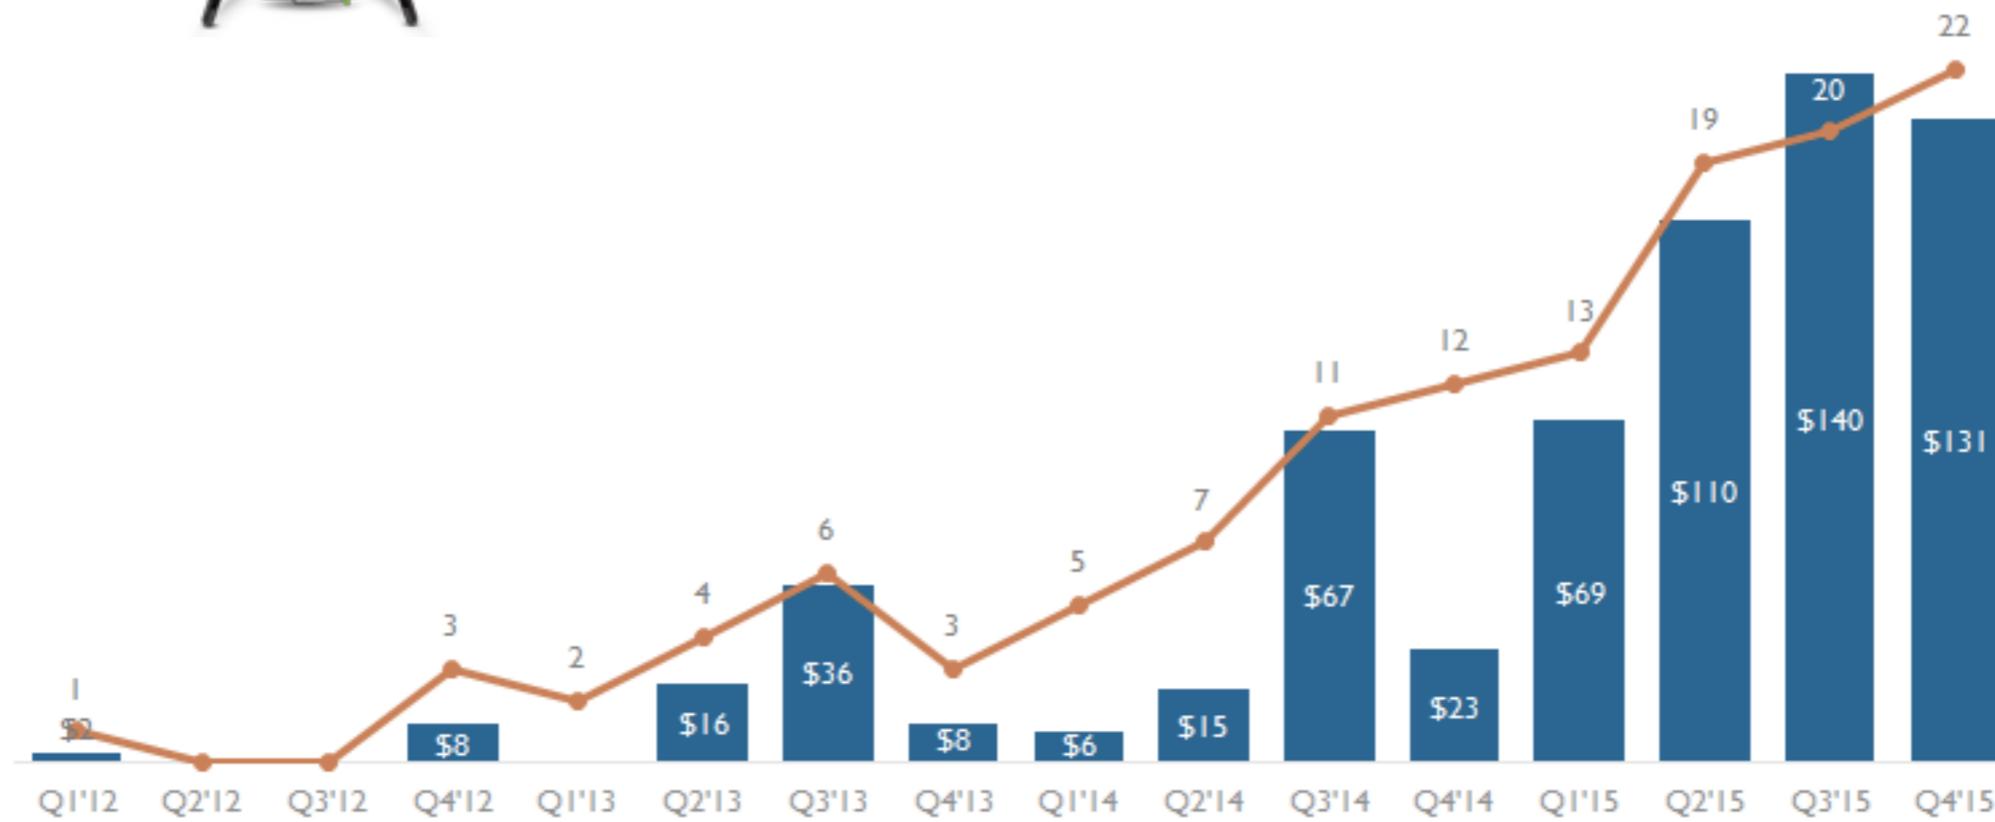

of search results “[robotics-worldwide] [jobs]” within 1, 2, and 3 years of March 2016

INVESTMENTS

Drone Investment Activity Q1'12 - Q4'15

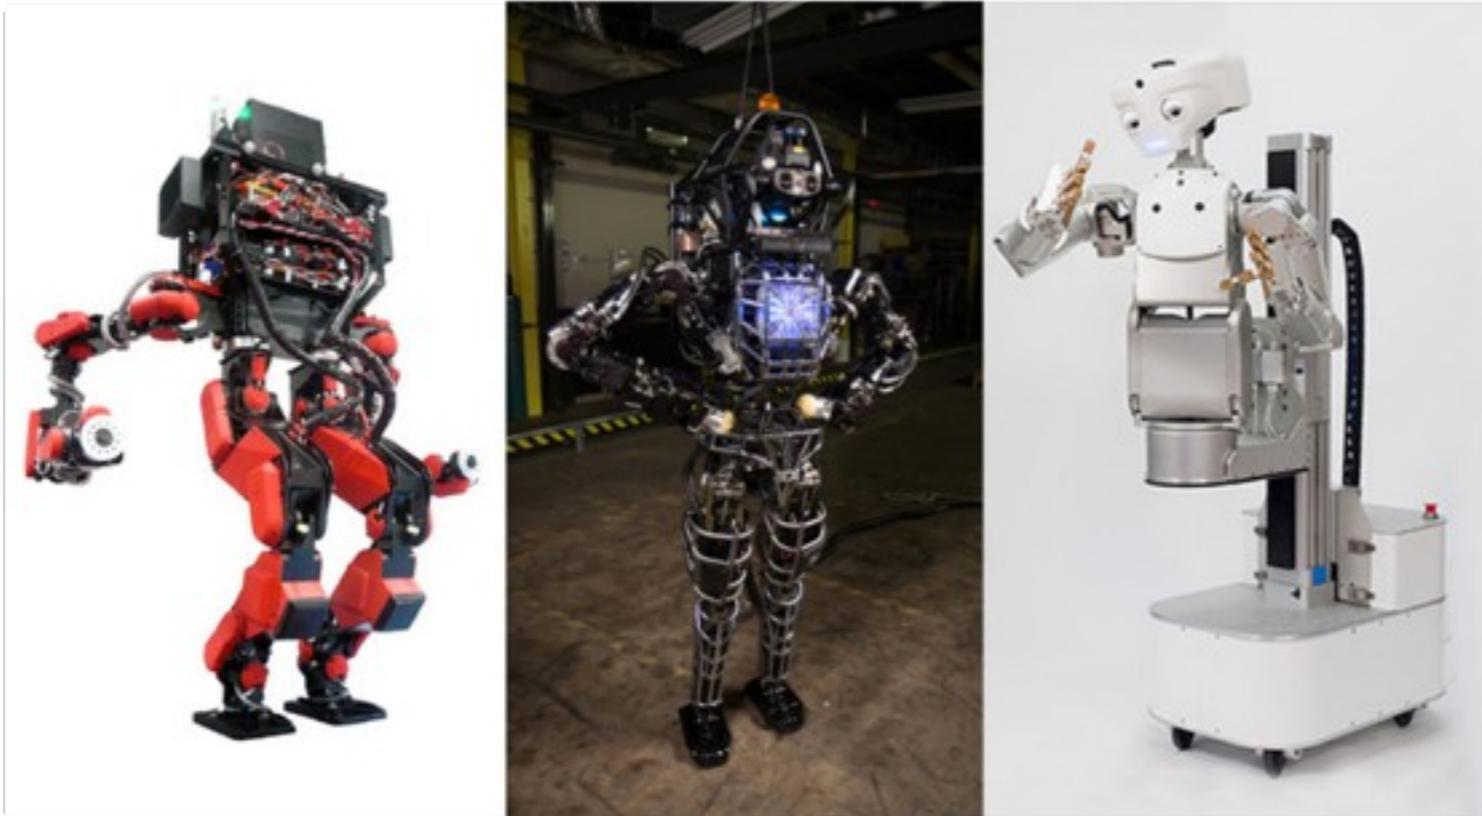

INVESTMENTS

2012: Amazon purchased Kiva systems for \$775M

INVESTMENTS

2014: Google buys eight robotics companies

Schaft Inc.
Industrial Perception, Inc
Redwood Robotics
Meka Robotics
Holomini
Bot & Dolly
Boston Dynamics*
DeepMind Technologies

*for sale

AREAS OF PROGRESS

Sensors

Perception

Planning

Interaction

Learning

Control

Actuators

DOMAINS OF PROGRESS

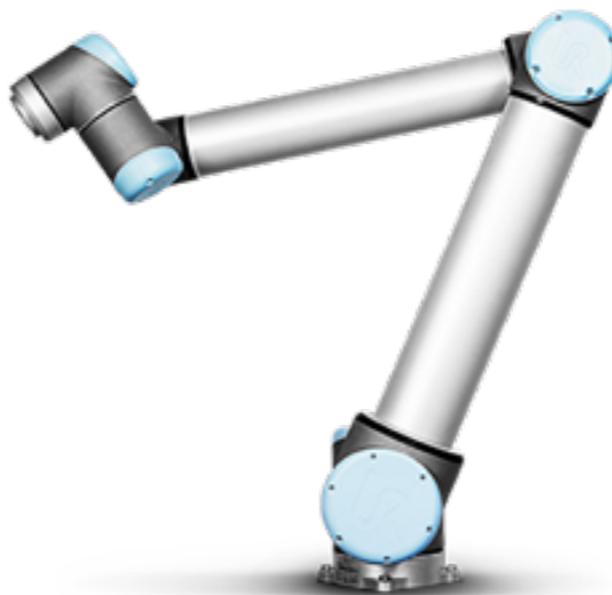

search&rescue

self-driving cars

indoor navigation

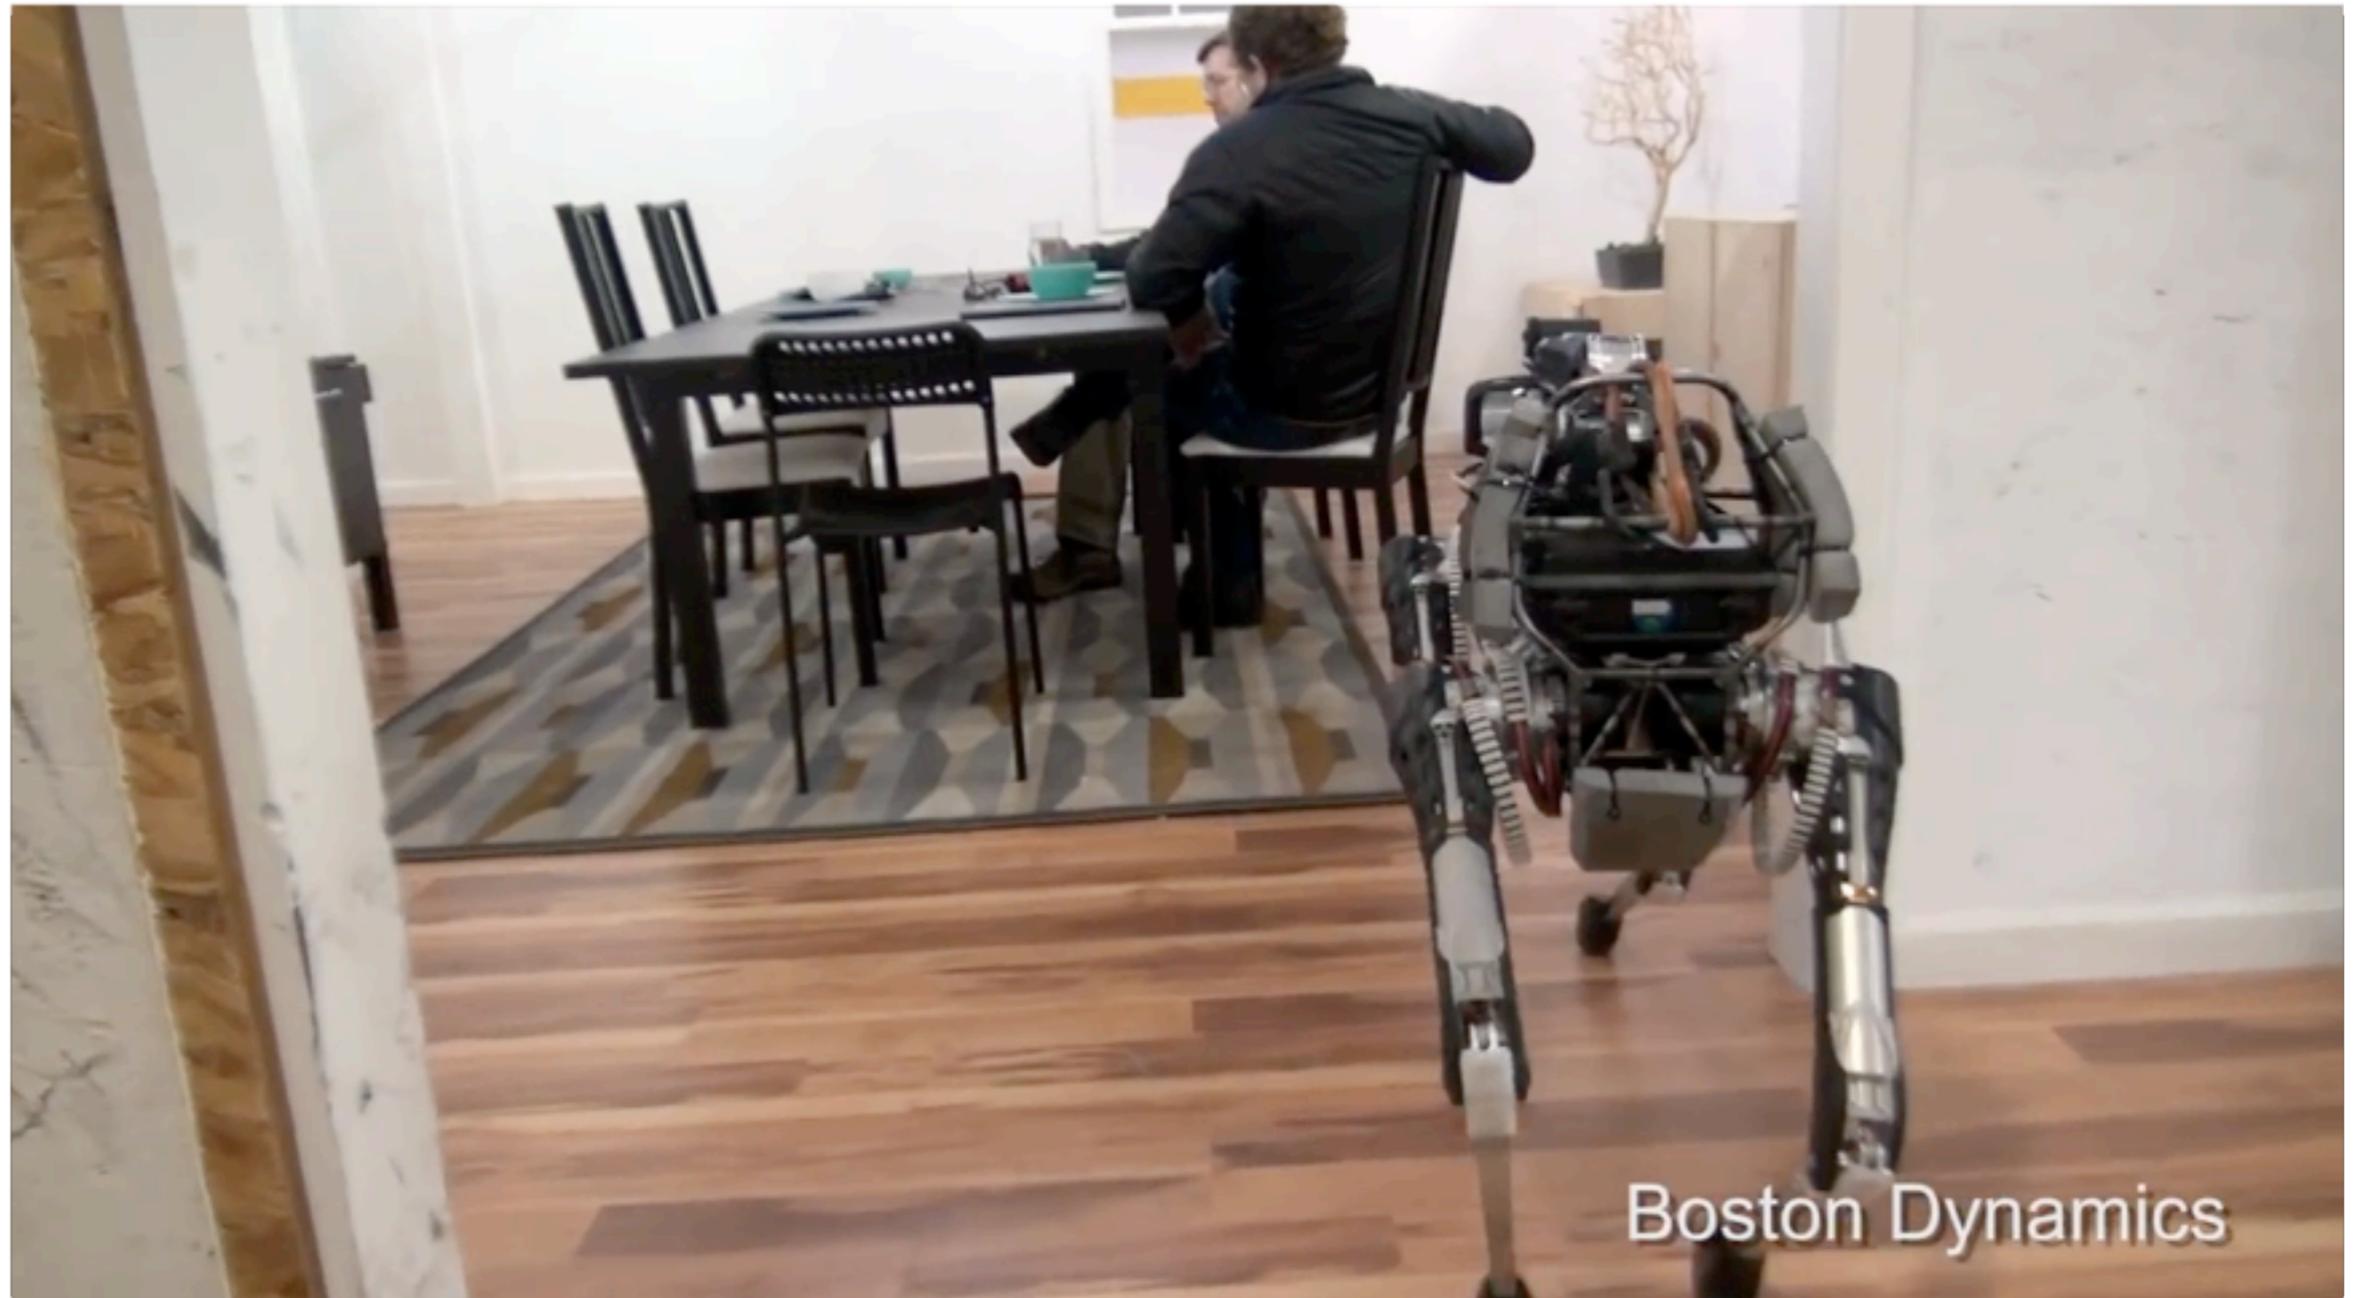

manipulation

social robots

SEARCH & RESCUE

Boston Dynamics

<https://www.youtube.com/watch?v=tf7IEVTDjng>

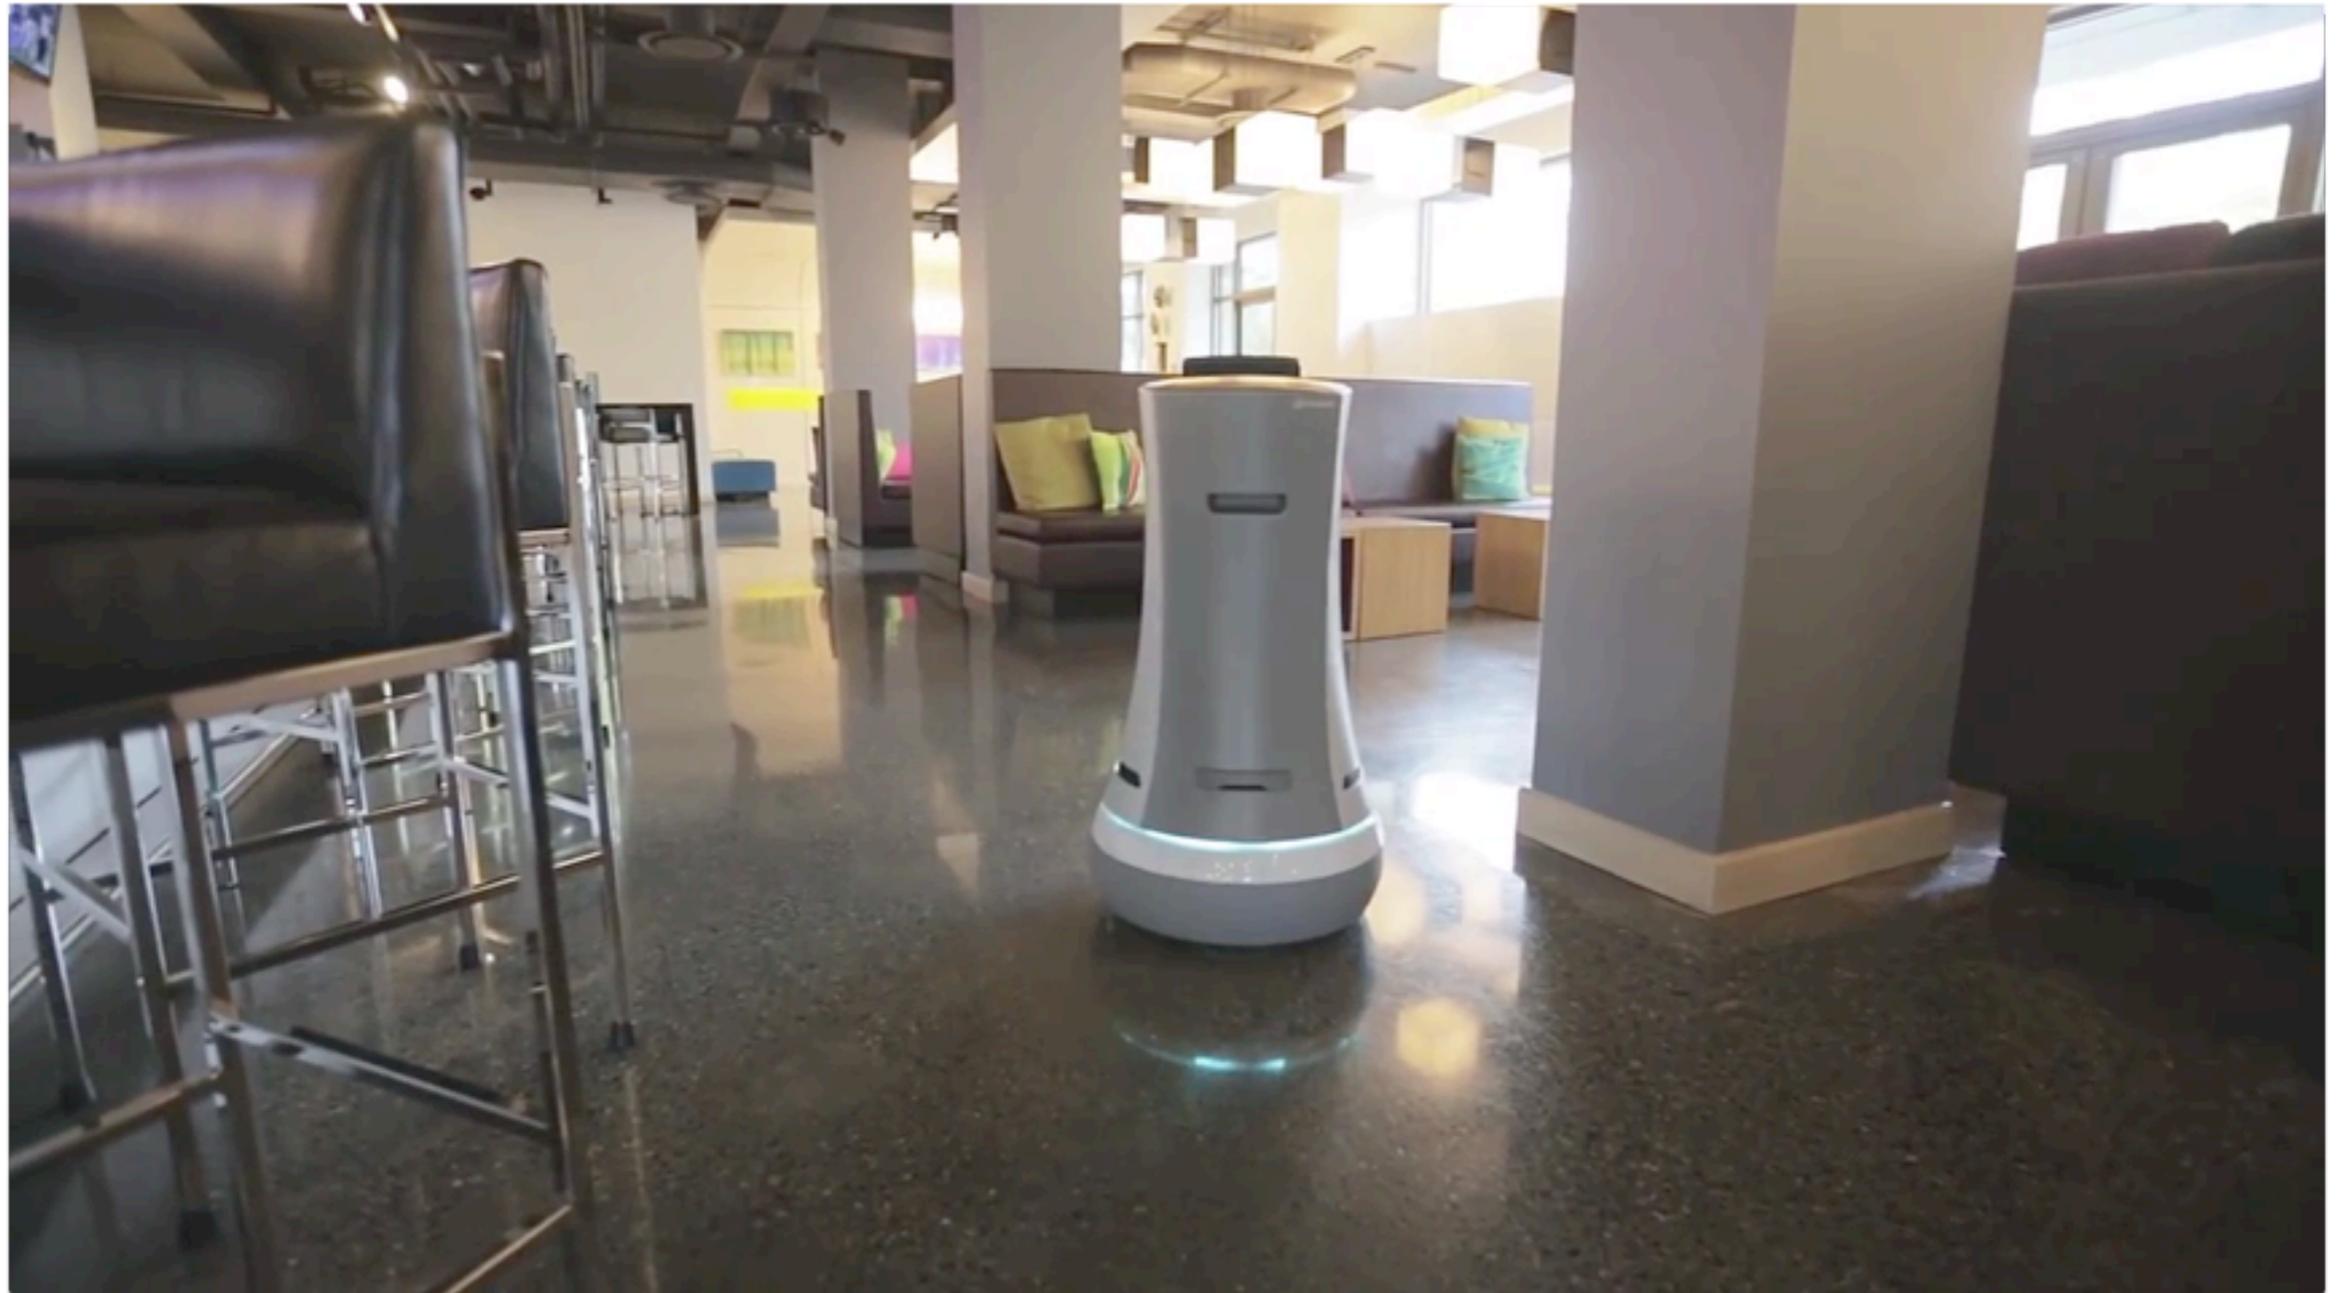

SELF-DRIVING CARS

Google self-driving car

<https://www.youtube.com/watch?v=TsaES--OTzM>

INDOOR NAVIGATION

Savioke Relay robot

<https://www.youtube.com/watch?v=AiZj7LTMjzs>

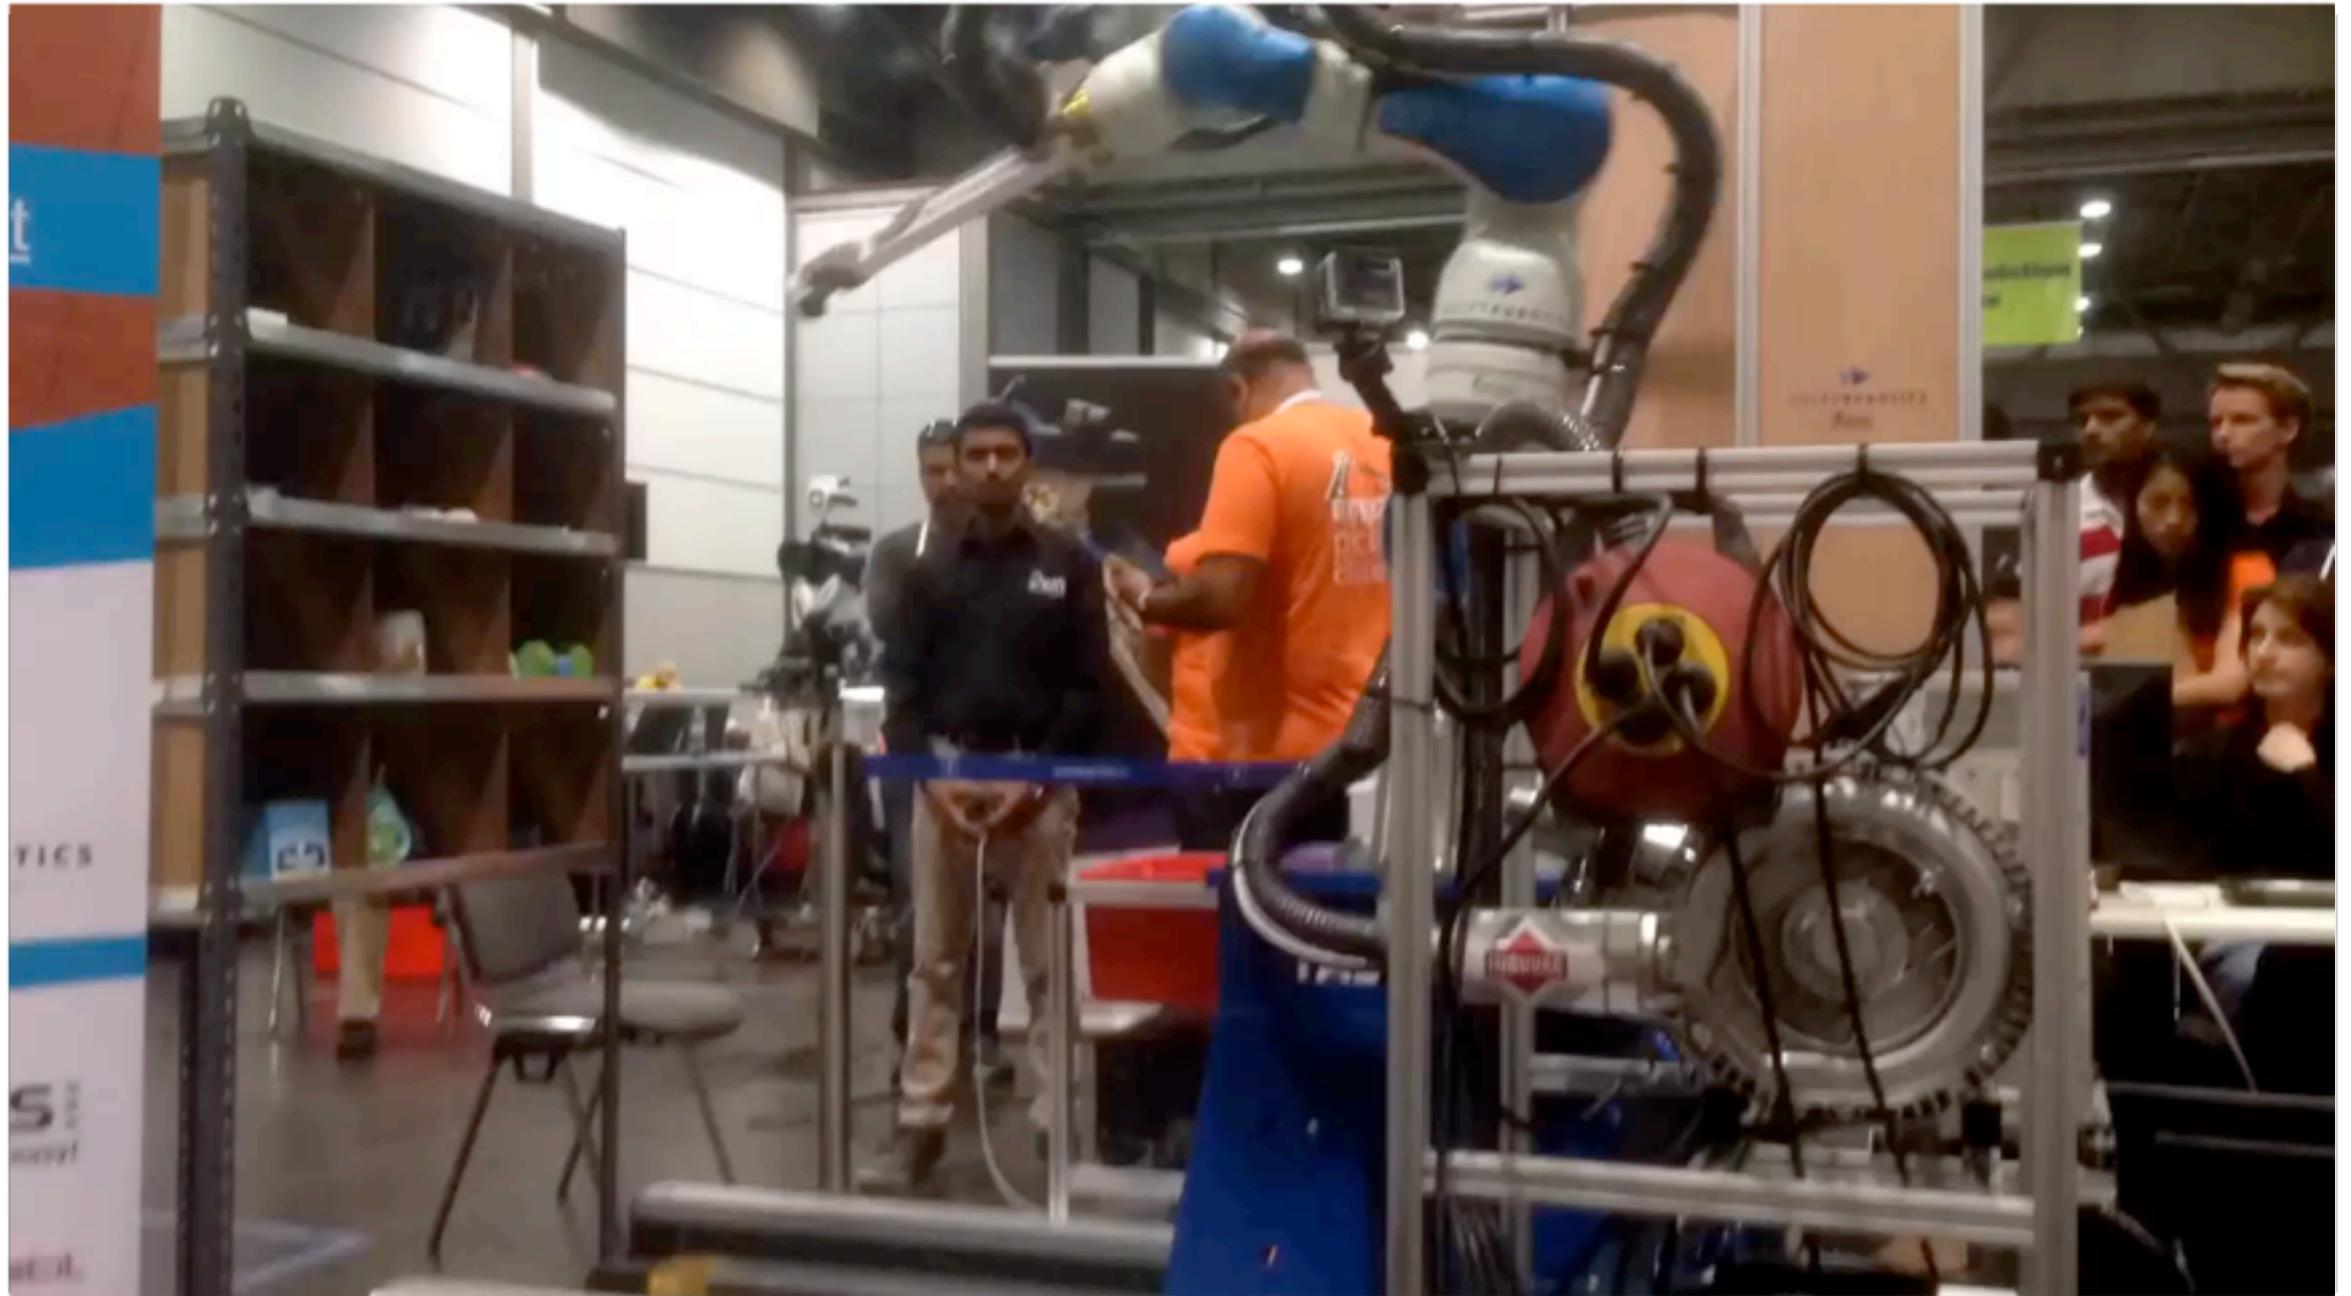

SOCIAL ROBOTS

Jibo family robot

<https://www.youtube.com/watch?v=3NIQ8oFpXIY>

MANIPULATION

Amazon picking challenge, 2016

<https://www.youtube.com/watch?v=gB8xXpkNjBk>

DOMAINS OF PROGRESS

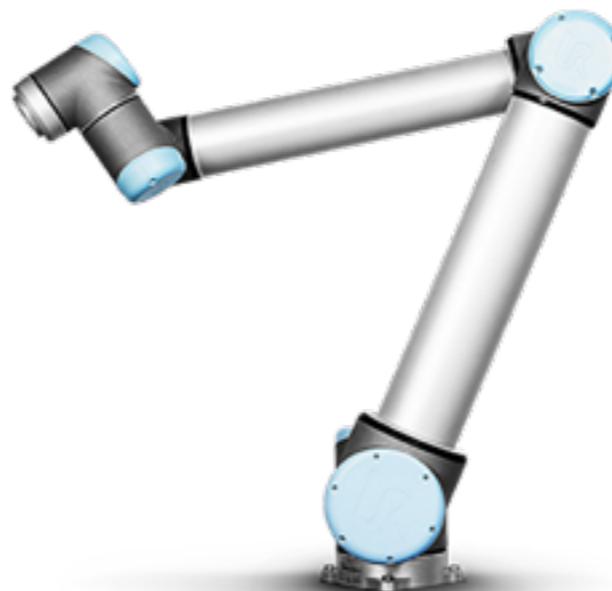

search&rescue

self-driving cars

indoor navigation

manipulation

social robots

ROBOTS FOR ACCESS

Telepresence

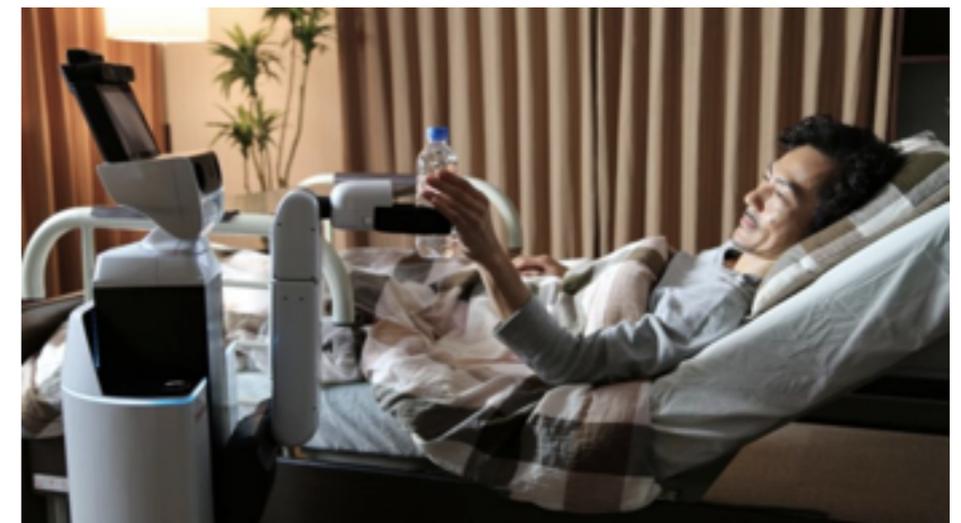

Navigation

Autism Spectrum Disorders

Manipulation

Assistance

TELEPRESENCE

Henry Evans, giving a TED talk

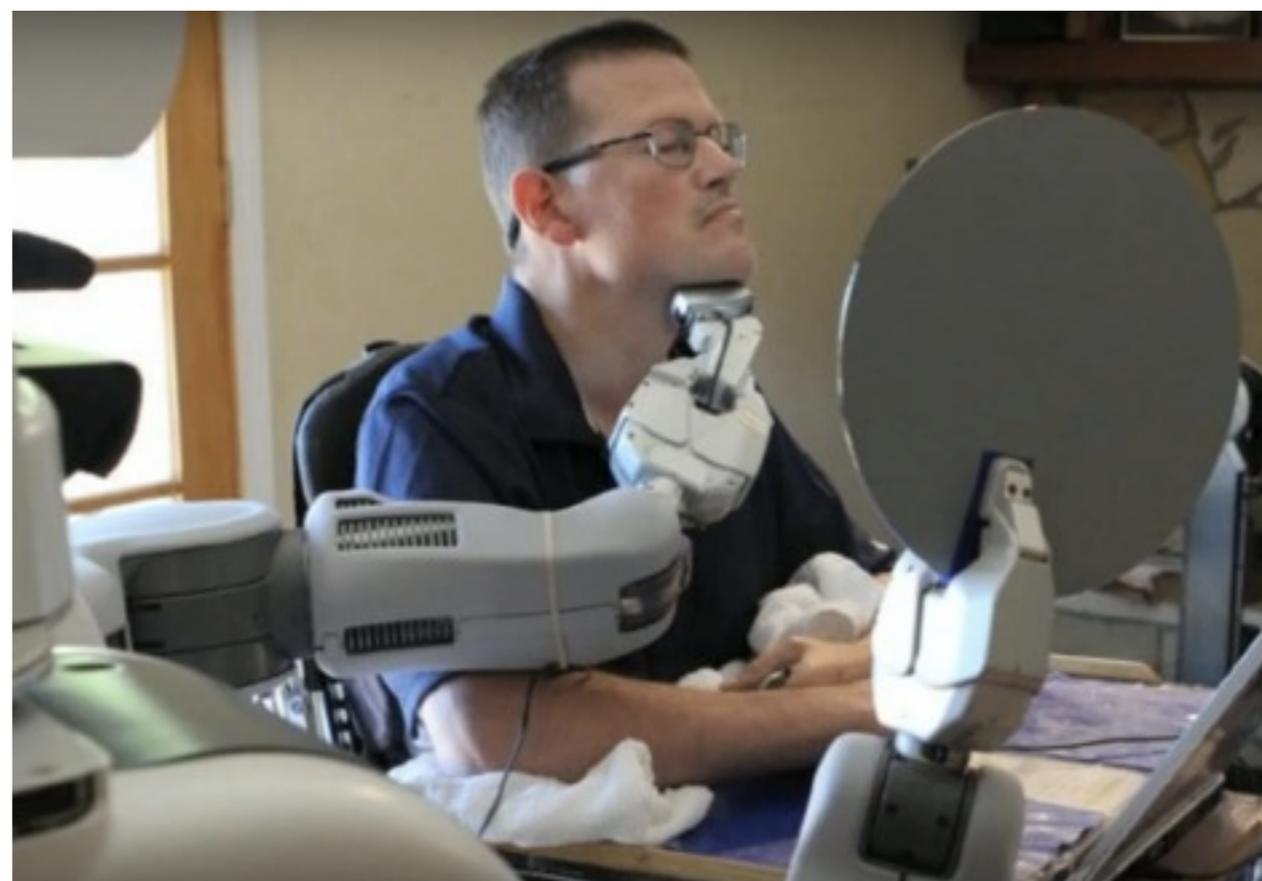

<https://www.youtube.com/watch?v=aClukWXmIV4>

TELEPRESENCE

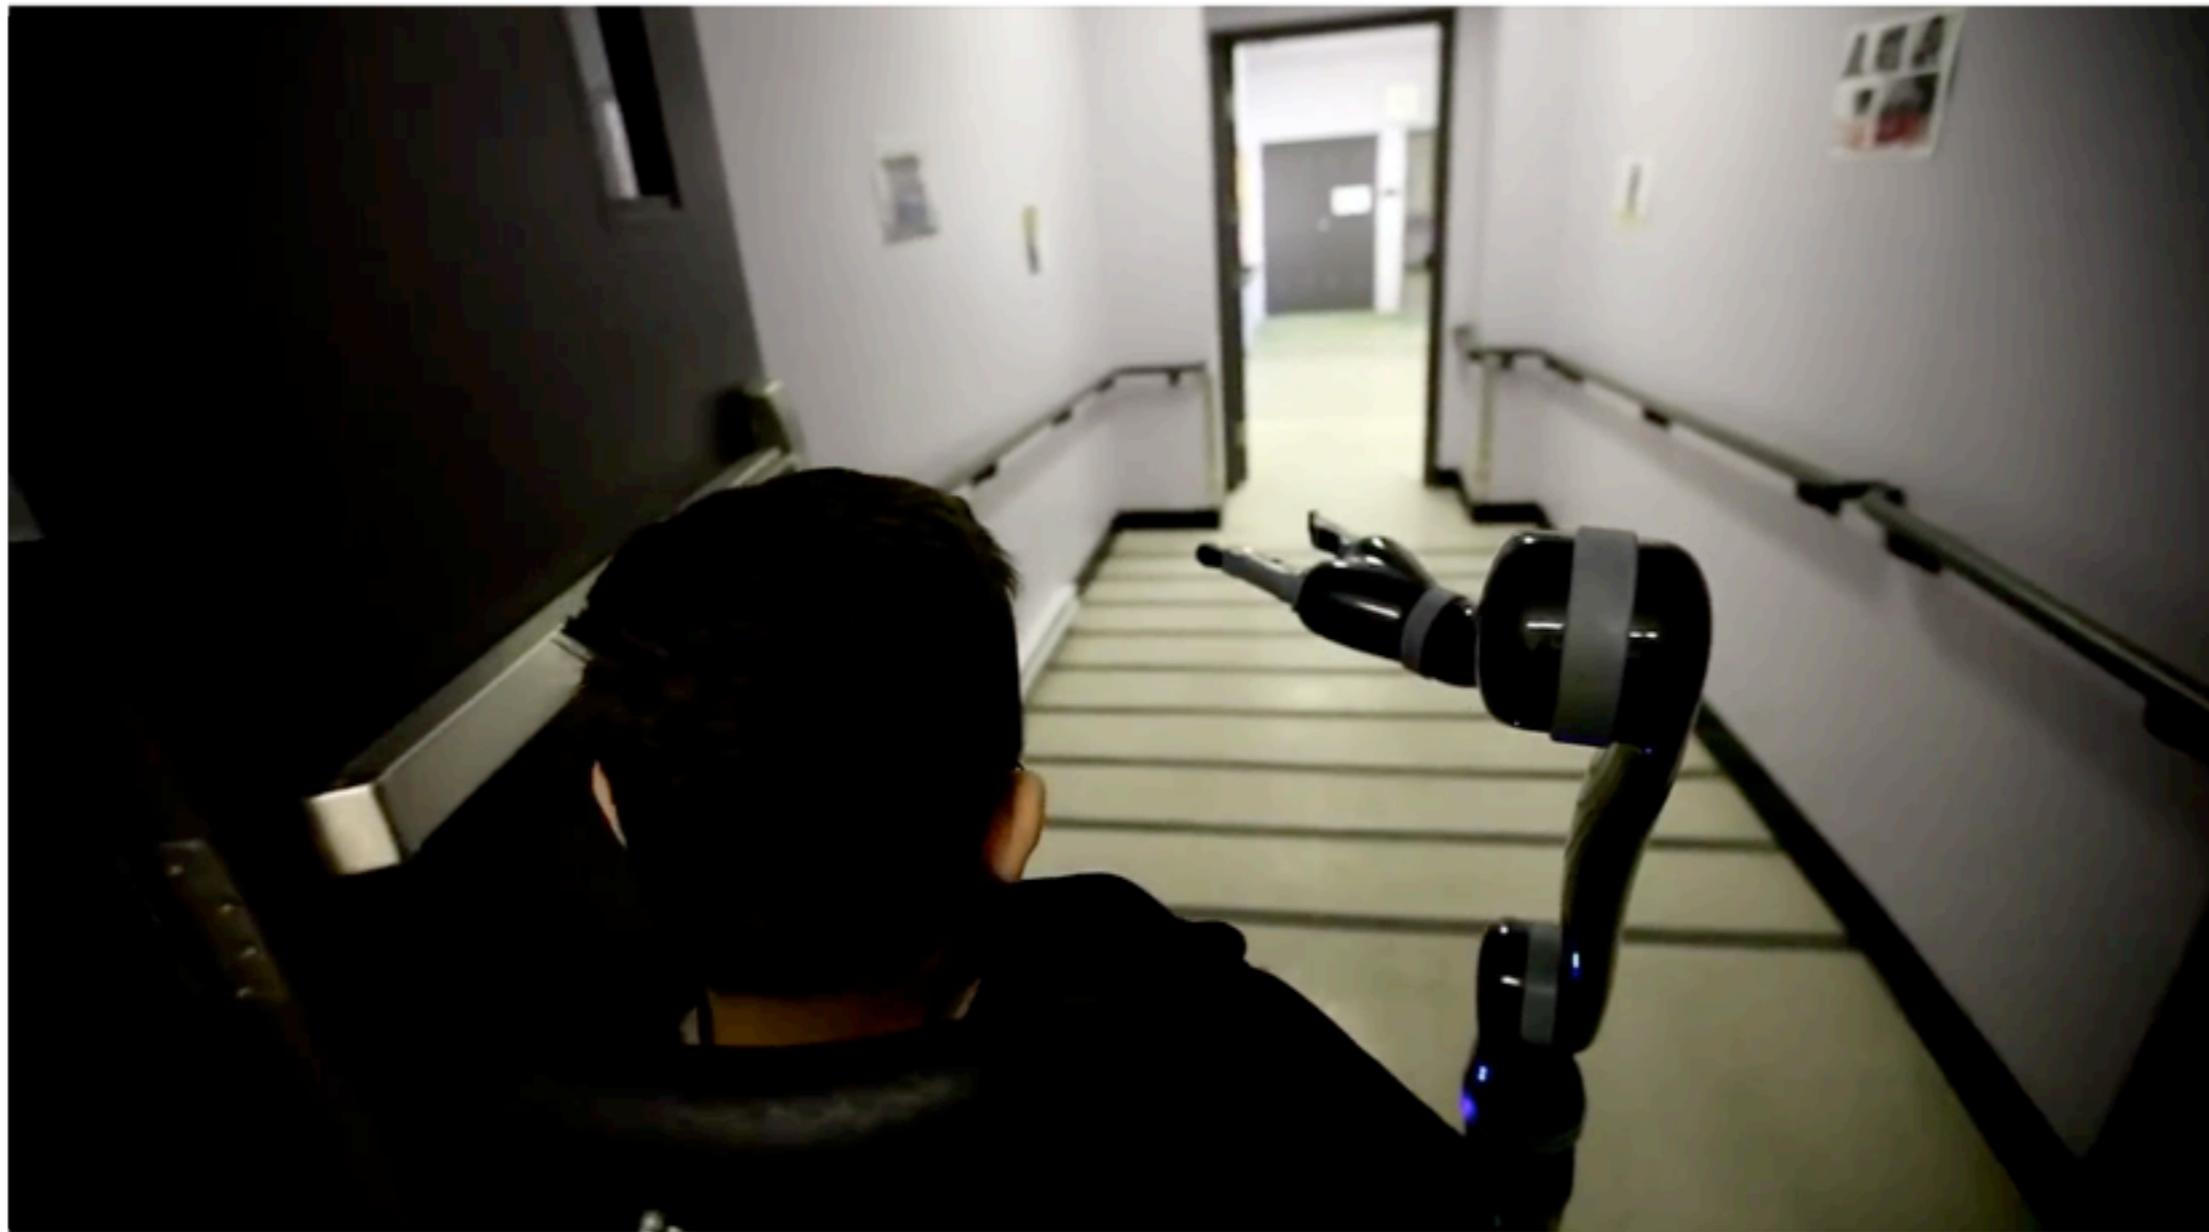

Henry Evans, viewing his grapevines with his drone

PHYSICAL ASSISTANCE

Henry Evans, using the PR2

MANIPULATION

JACO arm, with human tele-operation

<https://www.youtube.com/watch?v=iZYxJFROew8>

MANIPULATION

Brad Duerstock, RoboDesk

<https://www.youtube.com/watch?v=VhLTEIEAtaQ>

ROBOTS FOR ACCESS

Strategies for near term impact

human-in-the-loop

semi-structured
environments

user and task
centered design

customizability,
end-user programming

QUESTIONS

How can we **make robots more accessible?**

How can we **use robots to make the world more accessible?**
